

I strongly urge you and your office to preserve Indiana's "DO NOT CALL" law. This is a right to privacy issue on an individual and family level. I will not tell you of all the occasions that our household was disrupted by rude, obnoxious, and inconsiderate callers. The quantity and the timing of the calls became alarming. All requests to be removed from call lists failed and seemed only to encourage more disruptive actions. The whole process became absurd. The Indiana legislature has finally done something to support the Indiana resident in a very tangible way...helped personal and family privacy... and it cannot be weakened. To the contrary it should be strengthened. This is a quality of life issue and surely a voters issue. The citizens of Indiana need you to support our law. There is nothing the CBA can say or do to convince me or my family that we should be inundated with their member calls. I thank you for your support on this matter.

Edward E. Rich
